

MINHAJ ASGHAR

BS ARTIFICIAL INTELLIGENCE

Lahore, Pakistan | minhajasghar5@gmail.com | +92 3320271743 | [LinkedIn](#) | [Github](#) | [Portfolio](#)

SUMMARY

Artificial Intelligence student with strong Python programming skills and hands-on experience in Machine Learning, NLP, and Data Analysis. Skilled in using Pandas, scikit-learn, and TensorFlow to build real-world AI solutions. Passionate about GenAI, automation, and developing intelligent systems with continuous focus on learning and innovation.

SKILLS

- **Programming & ML:** Python, Supervised & Unsupervised Learning, Feature Engineering, Model Evaluation
- **Computer Vision & NLP:** OpenCV, NLTK, Transformers, Text & Image Processing
- **Libraries & Tools:** Pandas, NumPy, scikit-learn, TensorFlow, Matplotlib
- **GenAI & Automation:** LangChain, RAG Systems, AI Agents, n8n
- **Data Handling:** Preprocessing, Cleaning, API Integration, SQL
- **Platforms:** Jupyter Notebook, Google Colab, GitHub, AWS

EXPERIENCE

AI Intern

TNT Innovations | Present (Onsite)

- Working on AI/ML-based solutions, applying computer vision and automation techniques in real-world projects.

ML Intern

Elevvo Pathways | Aug 2025 (1 month remote)

- Applied regression, classification, and deep learning models on real-world datasets; enhanced problem-solving and model deployment skills.

AI Intern

Digital Empowerment Pakistan | Jul 2024 (1 month remote)

- Implemented NLP and ML techniques including preprocessing, text classification, and model building using Pandas and scikit-learn.

Data Science Intern

Digicon Valley Software House | May 2024 (7 days onsite)

- Developed Python-based data analysis scripts and worked with APIs and datasets in a team environment.

PROJECTS & COURSEWORK

- **Stafflytics AI (Restaurant Staff Intelligence System):** Built an AI-powered restaurant staff tracking system with real-time monitoring, automated attendance, and performance analytics using YOLOv8-Pose, OpenCV, and Flask.
- **SmartAttend AI (Office Attendance System):** Developed a face recognition-based attendance and productivity monitoring system with real-time zone tracking using YOLO11, OpenCV, and Flask.
- **Brandflux (AI Brand Content Generator):** Built a full-stack AI-powered brand content generation platform with automated content creation and image generation using Next.js, FastAPI, Gemini 1.5 Flash, and Supabase.

Relevant Coursework: Machine Learning, Data Structures & Algorithms, Probability & Statistics, Analysis of Algorithm, Data Analysis, Artificial Intelligence.

CERTIFICATIONS

- Artificial Intelligence Community of Pakistan – Chatbot Workshop | Jan 2024 [\[Certificate Link\]](#)

EDUCATION

BS Artificial Intelligence

Superior University, Lahore | 2023 – 2027 (7th Semester) | CGPA: 3.4/4.00
