

MINHAJ ASGHAR

BS ARTIFICIAL INTELLIGENCE

Lahore, Pakistan | minhajasghar5@gmail.com | +92 3320271743 | [LinkdedIn](#) | [Github](#) | [Portfolio](#)

SUMMARY

AI Engineer with hands-on experience building and deploying real-world AI systems — from computer vision and GenAI platforms to full-stack automation tools. Skilled in Python, TensorFlow, LangChain, and modern AI/ML pipelines, with a track record of taking projects from prototype to production. Passionate about GenAI, intelligent automation, and building systems that solve real business problems.

SKILLS

- **Programming & ML:** Python, Machine Learning (Supervised & Unsupervised), Feature Engineering, Model Evaluation
- **Computer Vision & NLP:** OpenCV, YOLOv8, YOLO11, Ultralytics, Face Recognition, NLTK, Transformers, Text & Image Processing
- **Libraries & Tools:** Pandas, NumPy, scikit-learn, TensorFlow, Matplotlib
- **GenAI & Automation:** LangChain, RAG Systems, AI Agents
- **Deployment & Streaming:** Flask, FastAPI, MediaMTX, WebRTC, RTSP
- **Data Handling:** Preprocessing, Cleaning, API Integration, SQL
- **Platforms:** Jupyter Notebook, Google Colab, GitHub, AWS

EXPERIENCE

AI Engineer

TNT Innovations | Apr 2026 - Present (Onsite)

- Designing and deploying AI-powered production systems - computer vision, face recognition, and GenAI content generation alongside full-stack platforms for internal and client use

ML Intern

Elevvo Pathways | Sep 2025(Remote)

- Applied regression, classification, and deep learning models on real-world datasets; enhanced problem-solving and model deployment skills.

AI Intern

Digital Empowerment Pakistan | Jul 2024 (Remote)

- Implemented NLP and ML techniques including preprocessing, text classification, and model building using Pandas and scikit-learn.

Data Science Intern

Digicon Valley Software House | April 25 - May 2 2024 (Onsite)

- Developed Python-based data analysis scripts and worked with APIs and datasets in a team environment.

PROJECTS

- **Stafflytics AI (AI-Powered Analytics & Monitoring System):** Built a real-time AI analytics platform using YOLOv8 and RTSP/IP camera feeds for activity tracking across multiple live streams; solved cross-network connectivity via a Tailscale VPN bridge and deployed on a production VPS with full pipeline stability.
- **Brandflux AI (AI-Powered Brand Content Generator):** Built a new full-stack GenAI platform that scrapes any website and auto-generates daily, on-brand social media content (text + images) across platforms using Gemini 1.5 Flash — a fully automated, self-running content pipeline.
- **Chaty-Waty (AI Customer Service Platform):** Built a multi-platform AI-powered customer service system with automated conversational agents across e-commerce channels (including Daraz, Facebook page, Instagram, Whatsapp business), using LangChain and LLM APIs to streamline agent workflows and responses.

EDUCATION

BS Artificial Intelligence

Superior University, Lahore | 2023 – 2027 (7th Semester) | CGPA: 3.39/4.00

Certification: AI Community of Pakistan – Chatbot Workshop (Jan 2024) [\[Certificate link\]](#)
